THE TILE APP

How it works

Find nearby

Use the Tile app to ring your Tile when it's within Bluetooth range or ask your Smart Home device to find it for you.

Find far away

When outside of Bluetooth range, use the Tile app to view your Tile's most recent location on a map.

Find your phone

Double press the button on your Tile to make your phone ring, even when it's on silent.

Notify when found

Enlist the help of the Tile Network to help find your things. If your Tile is lost, add your contact information so you can be reached when someone scans the QR code on your lost Tile.

MORE WAYS TO FIND

Tile compatibility

You can find your Tile with both iOS and Android devices. You can also ask your Voice Assistant -- Amazon Alexa, Google Assistant, Xfinity, and Siri -- to find it for you.
