

THE NEW PRO SERIES

# tileSport

Rugged and waterproof, the all-new Tile Sport attaches to anything and is ready to find your things no matter where life takes you.

### Ring it. Find it.

Tile Sport has a 200 ft. range — that's 2X our current Tiles. Plus, it's 2X louder, making it easy to find when it's nearby.

### Find your phone

Double tap the button on your Tile Sport and your phone will begin to ring — even on silent.

### See it on a map

The Tile app remembers when and where you left something behind.

### Your very own search party

If your Tile is lost, you can anonymously put every Tile app on the lookout to help you find your lost item. With millions of users, Tile is the world's largest lost and found community.

### Ready for anything

Waterproof and resilient, Tile Sport holds up to the demands of your busy life.

### Zero Upkeep

Tile's batteries last a full year with no charging required.
